

# DULON POLISH & WAX COMPOUND 18

CLEAN & SHINE POLISH

## DESCRIPTION

Combines a polishing paste and wax fluid in one. It cleans and restores lightly weathered, dull surfaces and it removes small scratches, stains and streaks. It provides a high gloss protection during the whole sailing season. DULON POLISH & WAX COMPOUND 18 can be used on several hard surfaces like gel coat, painted steel and wood and stainless steel. Easy on – Easy off principle.

- 2-in-1 Polish & Wax – CLEAN – SHINE – PROTECT.
- Polish and protect in one step.
- Easy-on-easy-off.
- High-gloss protection throughout the sailing season.

## INSTRUCTIONS

### PRETREATMENT (if required)

- Use DULON HULL & WATERLINE CLEAN 22 to remove scale and brownish/yellow stains.
- Use PREDULON 00 to remove surface dirt, grease, oil, old wax and silicon traces.

### POLISHING - MANUALLY

1. Apply DULON POLISH & WAX COMPOUND 18 with a damp microfibre cloth, polish pad or sponge by circular motions, until the desired result is achieved.
2. Let it dry and rub / buff with a clean, dry microfibre cloth or lambswool pad.

### POLISHING – MACHINE (concentric + medium polishing pad and lambswool pad)

1. Lightly moisten the polishing pad (medium) and apply a small amount on the pad.
2. Spread DULON POLISH & WAX COMPOUND 18 thinly on the surface.
3. Polish the surface at low speed, in gentle, controlled movements - horizontally and vertically.
4. Increase rotation speed slightly during polishing process until desired result is achieved.
5. Buff / rub with a clean, dry lambswool pad at high rotation speed.

## AVAILABLE PACKAGING
